

# Engineering Students... Looking for a summer job or your first professional experience?

Would you like a paid summer engineering internship?

**Did you attend high school in the Milwaukee area?\***

Are you currently studying science or electrical, mechanical, structural, civil, construction or architectural engineering?

Have you completed two years of your college education?

You may be one of a few lucky students offered a paid summer internship with a leading consulting or construction firm this summer.

\*Students must have attended high school in the MMSD Sanitary Sewer Service Area. See map on back. No exceptions.

## The Milwaukee RISE Initiative

### Regional Internships in Science & Engineering

Sponsored by the Milwaukee Metropolitan Sewerage District

Managed by Prism Technical

090415 RISE

# RISE PROGRAM DESCRIPTION

The Milwaukee Regional Internships in Science and Engineering (RISE) initiative is a career and personal development program designed by Prism Technical Institute, a business unit of Prism Technical Management & Marketing Services, LLC for the Milwaukee Metropolitan Sewerage District (MMSD or "District"). The program is a crucial opportunity to address the under-representation of some ethnic minorities in science and engineering industry sectors. Internships are paid positions.

While all students are welcome, the program targets talented students of color, who were Sewer Service Area (SSA) residents at the time of their high school graduation, and are currently engaged in science or engineering coursework at an institution in the United States, ultimately leading to a Bachelor of Science degree or higher. The SSA surrounds the City of Milwaukee, WI and includes several surrounding suburban communities.

Selected students are placed in paid summer internships with engineering firms, project consultants and contractors affiliated with the District, however, the work the students do may or may not be related to MMSD operations.

The goal of the program is to have a two year internship experience for students and employers leading to a professional relationship upon graduation. However, there are no requirements for students or employers to maintain their affiliation.

## INTERNSHIP ELIGIBILITY

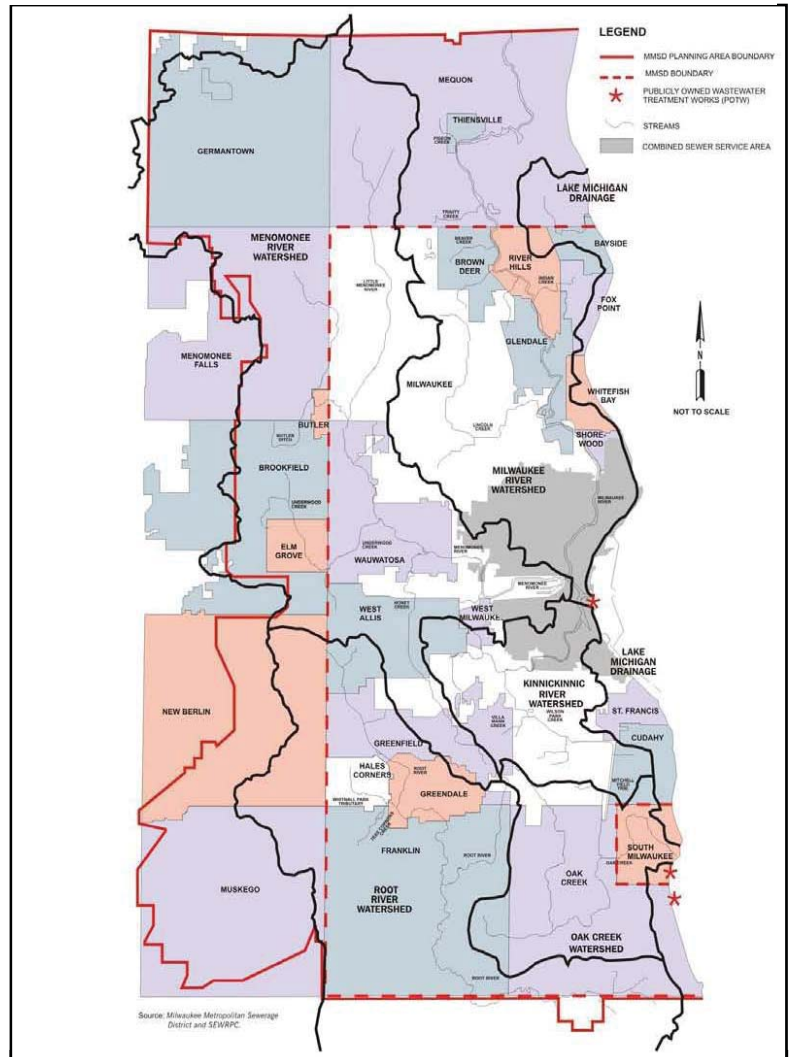

A. Academics - Intern Candidates applying for RISE must meet the following academic criteria to compete for a RISE Internship:

1. Must be enrolled fulltime in an accredited college or university program in the USA.
2. Must be a candidate for a Bachelor or Master of Science Degree, or as approved by MMSD.
3. Must be enrolled in an MMSD approved curriculum. If yours is not listed, feel free to contact us to verify acceptability.
  - a. Architectural Engineering
  - b. Civil Engineering
  - c. Construction Engineering
  - d. Construction Management
  - e. Electrical Engineering
  - f. Engineering Management
  - g. Mechanical Engineering
  - h. Process Controls
  - i. Structural Engineering
4. Minimum 2.4 cumulative GPA on a 4.0 scale.
5. Sophomore or greater standing: Must have completed a minimum of 50% of the credits necessary for graduation.

B. Residency - Candidates must be able to prove residency in the MMSD Sewer Service Area (see attached map)

C. Citizenship - Intern candidates must be citizens of the USA.
