REGIONAL INTERNSHIPS IN SCIENCE & ENGINEERING (RISE)

"Where local students and employers create synergy"

RISE (Regional Internships in Science and Engineering) is a career and professional development program, providing meaningful work experience and professional relationships with local construction and engineering firms, consultants and planners to prepare students for success in the Greater Milwaukee infrastructure job market. The program is sponsored by the Milwaukee Metropolitan Sewerage District (MMSD) and conceived, developed and managed by Prism Technical Management & Marketing Services (Prism).

The program targets talented students who were Sanitary Sewer Service Area (SSSA) residents at the time of their high school graduation, and are currently engaged in science or engineering coursework at an institution in the United States, ultimately leading to a Bachelor of Science degree or higher. The SSSA contains the City of Milwaukee, WI and includes several surrounding suburban communities.

Selected students are placed in paid summer internships with engineering firms, project consultants and contractors affiliated with the District, however, the work the students do may or may not be related to MMSD operations. The goal of the program is to have a two year internship experience for students and employers leading to a professional relationship upon graduation. However, there are no requirements for students or employers to maintain their affiliation.

BEHIND THE PROGRAM

MMSD is a regional governmental agency that provides state-of-the-art water reclamation and flood management services for about 1.1 million customers in 28 communities in the Greater Milwaukee area.

Prism is a business and management consulting firm advising leading companies and forward thinking governmental entities on issues of strategy, capacity building, talent development and diversity.

THE RISE PROGRAM

RISE EMPLOYER PARTNERS

The RISE program wouldn't exist if it weren't for our committed employers. Since 2009, participating employers have included AECOM, Alfred Benesch & Co., Aquarius Technologies, Aqua-Vitae, Benesch, Boldt, Brown & Caldwell, CH2M Hill, CG Schmidt, City of Milwaukee, Dairyland Energy Solutions, Dakota Intertek, Donahue & Associates, Gestra Engineering, Gilbane Building Company, GRAEF, Hanging Gardens, HNTB, JF Ahern, JMB & Associates, Mechanical, Inc., Mortenson Construction, NEXT Electric, North Wind Tech, Pieper Electric, Platt Construction, Ramboll Water Americas, Rawson Contractors, Ruekert-Mielke, SEH, Strand Associates, Inc., Southeastern Wisconsin Regional Planning Commission, Symbiont, The Concord Group, Veolia, Veterans Electric, Walbec Group, WasteCap, White Lake Dock & Dredge and many more. They have employed RISE students attending colleges and universities across America.

INFLUENCE THE EDUCATIONAL AND PROFESSIONAL GROWTH OF LOCAL TALENT

RISE STUDENTS

Students suitable for the RISE program are students who are looking to explore a diversity of career options, build up impressive résumés, as well as getting industry hands-on experiences while networking with the industry's best professionals.

ARE YOU INTERESTED IN...

Exploring career options? Building your résumé? Getting hands-on experiences?

HAVE YOU...

Attended high school in the Milwaukee area? Completed two years of college?
